Crafted by the students. Forged for IISER Tirupati.

Your Campus. Your Community. Connected.

Meet NEXUS. Your notes, your people, your next big thing — finally in one place. A little less chaos. A lot more campus.

Find your campus | Take a look

Verified @students.iisertirupati.ac.in access

Your everyday, connected. NEXUS / Discover

What NEXUS brings to you

- **Academic Resources** — Access notes, previous papers, presentations and shared study materials.
- **Student Community** — Connect with classmates, make friends and communicate through personal and group chats.
- **Collaborative Learning** — Discuss problems, exchange knowledge, join study groups and participate in daily QOTD/AOTD.
- **Campus Updates** — Discover events, workshops, announcements, Lost & Found and exciting opportunities.
- **Student Productivity** — Organise assignments, timetables, deadlines, personal notes and study schedules.
- **AI Study Companion** — Get help understanding concepts, exploring study materials and summarising academic documents.

One platform. Every part of student life.

One campus. All your connections. 124 students online

1,200+	2,400+	60+
campus connections	shared resources	student-led groups

LESS TAB-SWITCHING. MORE LIVING.

Everything campus. Nothing extra.

From the first lecture to the last chai break, keep your day together.

A shared academic memory

Good notes shouldn't disappear after a semester. Find material by course, topic and batch.

2,400+ resources · Student curated

Your people, closer

Find a lab partner, untangle a problem set, or just ask who's heading to the mess.

Friends · Messages · Study groups

Never miss the good stuff

Seminars, stargazing, internships and everything happening beyond your timetable.

Events · Campus Pulse · Opportunities

A little structure. A lot of calm.

Timetables, deadlines and focused study sessions. Built around the way students actually work.

Tasks · Timetable · Focus timer

PASS IT ON

Someone's already solved the "where are the notes?" problem.

Lecture notes, past papers and the explanation that finally clicks. A searchable repository built by the people taking your courses.

Summer research opportunities

OF THIS CAMPUS, FOR THIS CAMPUS.

Built between lectures, not in a boardroom.

We're students who were tired of lost PDFs, buried messages and missed opportunities. So we built a calmer home for life at IISER Tirupati.

"The best part isn't another app. It's finally knowing where to find each other."

AN **Arjun Nair**

ANSWER OF THE DAY · QUESTION #041

Why is the sky blue, but a sunset red?

AN **Arjun Nair**
BS–MS 2023 · Featured 2 Nov · 4 min read

Community pick

The short answer: sunlight takes a different journey through the atmosphere at sunset.

Air molecules scatter shorter wavelengths more strongly than longer ones. In the Rayleigh regime, the scattering intensity scales roughly as $1/\lambda^4$. Blue light is scattered across the sky far more effectively than red light.

$$I \propto 1 / \lambda^4$$

Shorter wavelength → stronger scattering

When the Sun is low, its light travels through a much longer atmospheric path. Much of the blue light is scattered away before the direct beam reaches us. What remains is richer in reds and oranges.

The sky isn't blue because air is blue. It's blue because of what air does to light — and where we happen to be looking.

Rayleigh scattering · Optics · PHY 201

↑ 86 helpful · 12 comments · Bookmark · Share ↗

Why this answer?

Clear reasoning, an intuitive connection, and just enough math to make the idea stick.

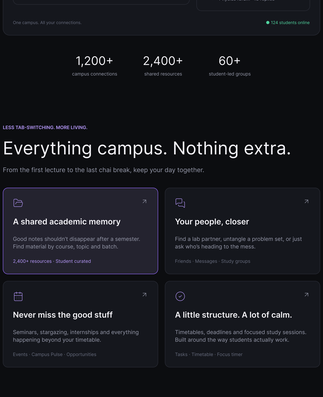
BUILT BY STUDENTS. ONLY FOR IISER TIRUPATI.

Your Campus. Your Community. Connected.

Meet NEXUS. Your notes, your people, your next big thing — finally in one place. A little less chaos. A lot more campus.

Find your campus
Take a look

Verified @students.iisertirupati.ac.in access



1,200+
campus connections

2,400+
shared resources

60+
student-led groups

LESS TAB-SWITCHING. MORE LIVING.

Everything campus. Nothing extra.

From the first lecture to the last chai break, keep your day together.

A shared academic memory

Good notes shouldn't disappear after a semester. Find material by course, topic and batch.

2,400+ resources · Student curated

Your people, closer

Find a lab partner, untangle a problem set, or just ask who's heading to the mess.

Friends · Messages · Study groups

Never miss the good stuff

Seminars, stargazing, internships and everything happening beyond your timetable.

Events · Campus Pulse · Opportunities

A little structure. A lot of calm.

Timetables, deadlines and focused study sessions. Built around the way students actually work.

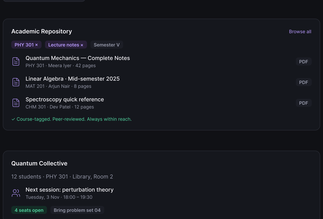
Tasks · Timetable · Focus timer

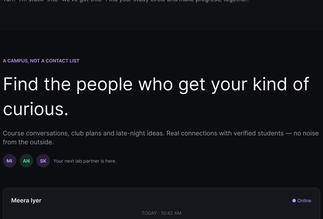
PASS IT ON

Someone's already solved the "where are the notes?" problem.

Lecture notes, past papers and the explanation that finally clicks. A searchable repository built by the people taking your courses.

Explore the repository





BETTER IN GOOD COMPANY

Hard problems. Shared whiteboards.

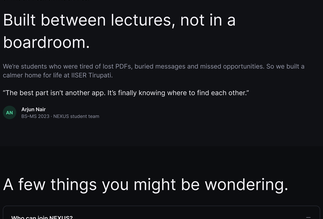
Turn "I'm stuck" into "we've got this." Find your study circle and make progress, together.

A CAMPUS, NOT A CONTACT LIST

Find the people who get your kind of curious.

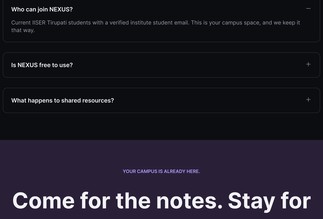
Course conversations, club plans and late-night ideas. Real connections with verified students — no noise from the outside.

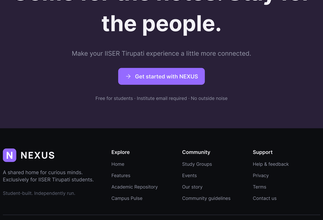
MI AN SK Your next lab partner is here.



THERE'S A WORLD BEYOND CLASS

Make room for a little campus life.





OF THIS CAMPUS. FOR THIS CAMPUS.

Built between lectures, not in a boardroom.

We're students who were tired of lost PDFs, buried messages and missed opportunities. So we built a calmer home for life at IISER Tirupati.

"The best part isn't another app. It's finally knowing where to find each other."

AN **Arjun Nair**
